DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 11/28/05. Examiner further the corrections/clarifications made to address the issues of the first action.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in telephone interviews with Attorney Rob Phillips on 1/30/06 and 2/1/06.

The application has been amended as follows:

- Please cancel claims 18-23

In claim 1, lines 10:

- After **by** please delete **a dealer or player using** and insert - - allowing a player to activate - -

In claim 18, line 7:

- After **by** please delete **a dealer or player using** and insert - - allowing a player to activate - -

Allowable Subject Matter

Claims 1, 2, 4-10 & 16-17 are allowed.

The following is an examiner's statement of reasons for allowance: Patentability has been found because the prior art fails to suggest or show the combination as set forth in the independent claims 1, 6 & 16 including a ball dispenser which contains a selection of balls used to determine a reward associated with a second wager **and** allowing a player to activate the ball dispenser which is incorporated on the wagering table. These requirements are not seen or fairly suggested by the prior art of record.

The closest prior art of references were Slinkman, Webb Johnson and Brenner.

The teachings of the cited references fail to anticipate or render obvious applicant's invention because there was insufficient motivation to combine the references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3711

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Response to Arguments

Applicant's arguments, filed 11/28/05 with respect to the pending claims have been fully considered and are persuasive. The rejection of 8/26/05 has been withdrawn.
